

Warning letter

Dear Mr.Behzad,

According to your passport's expiration date, it is necessary to extend your current passport before proceeding further. Please note, if a new passport is issued, your ongoing application cannot be processed with the new details. However, we have successfully processed applications for Afghan students at Hanze University of Applied Sciences using extended passports. Their admission and visa procedures were completed without any issues.

For reference, we have included a sample of extended Afghan passports that are accepted by Hanze University and the Kingdom of the Netherlands embassies. These extensions have been recognized and approved by both institutions, ensuring a smooth process for students.

Sincerely,

Mrs. Adriana Nelson
Student affairs expert
